Complete this consent if you AGREE to receive additional results for the biomarker testing for the Blood Serum Study of the PFAS Health Study.
You can say NO by not completing and not signing this consent form.

I give my consent to have my results from the PFAS Health Study Blood Serum Study (the Study) sent to me for the additional blood chemicals tested on my stored blood sample that show how well my liver and thyroid are working.

I have reviewed the Study Participant Information Sheet provided by ANU and I understand the scope of this Study and the purpose for which my blood sample will be used. I understand the risks involved as described in the Participant Information Sheet.

I am participating in this project on the understanding that:
- The information I provide will be kept confidential and not be used or released in any way that can identify me;
- The blood test results will be used for the purpose of the Study and the ANU is not responsible for providing medical treatment/advice;
- I will have access to reports on the progress of the Study and to a copy of its final report, including paper copy if I request it; and
- I am free to withdraw from the study at any time by contacting the researchers in writing or by telephone.

I understand that:
- If I agree, the researchers will send me my blood test results reporting on my levels of blood chemicals that show how well my liver and thyroid are working, and inform me if these results are abnormal;
- The researchers will not give me a medical interpretation of my blood test results;
- It is my responsibility to seek further medical advice of my blood test results, if necessary. Any costs associated with obtaining or acting on this advice will be my responsibility;
- If I do not agree to the researchers sending me my blood test results, they will not do so and will not inform me if any of the results are outside the normal range.

1 Official Project Title: The Per- and Polyfluoroalkyl Substances (PFAS) Health Study: Blood Serum Study
Please indicate if you do want to receive a copy of your results and whether you are or are not willing for your results to be sent to your doctor. You do not have to agree to this. If you agree, the Study team will send the results to the doctor you previously provided details for in the PFAS Health Study.

☐ I agree to have my results sent to me and agree to have my results sent to my doctor OR
☐ I agree to have my results sent me and do not agree to have my results sent to my doctor

I have been given access to an online copy of the participant information sheet and consent form.

_______________________________ Initials

☐ My contact details or my doctor’s details have changed since I completed the PFAS Health Study Cross-sectional Survey. If you tick this box a member of the PFAS Health Study team will contact you to update the details.

Signature of Principal Investigator

Professor Martyn Kirk

Concerns or complaints to:
The ethical aspects of this research have been approved by the Australian National University Human Research Ethics Committee, and the Northern Territory Department of Health and Menzies School of Health Research Human Research Ethics Committee, (ANU HREC protocol 2018/651, NTDoH and MSHR protocol 2018-3226). If you have concerns regarding the way this research was conducted please do not hesitate to contact the researchers or the following:
